Material Swatch Guide

## GENUINE LEATHER

This vibrant range has been produced with a pigmented topcoat and embossed with an attractive grain print to enhance its character.

Providing outstanding durability and stain resistance, this multipurpose leather is suitable for all types of upholstery, including heavy duty applications.

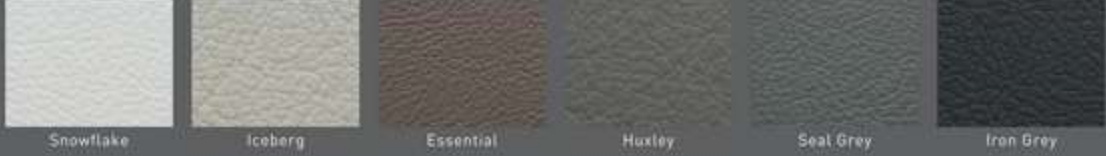

Thickness: 0.9-1.0mm. Average hide size: 4.6 sq.m.  
Suitable for domestic, contract and marine applications.

Vele is a contemporary range that has been developed in conjunction with leading design experts to reflect current colour trends.

Hides offer excellent durability and light-fastness, making this leather very easy to maintain and extremely durable.

Thickness: 0.9-1.0mm. Average hide size: 4.6 sq.m.  
Suitable for domestic, contract and marine applications.

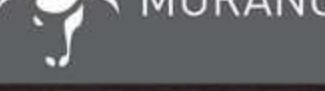

Old English is an online finished, lightly buffed pull-up type leather giving a warm and aged look. This is achieved by tanning with a special blend of oils and waxes giving it its distinctive cracked and distressed finish. This superb, ever popular, leather really highlights the hand-crafted nature of upholstery with its instant and proven heritage appeal. An artisan inspired article with a fantastic colour palette, Old English is used widely in both the domestic and contract sectors.  
Thickness: 0.9-1.0mm. Average hide size: 55 sq. ft.

Brunel is an online, hand buffed detailed leather with a strong artisan look. Time honoured techniques combined with special mixing processes produce hides which are unique and full of character. A faithful friend for the design conscious.  
Thickness: 0.9-1.0mm. Average hide size: 55 sq. ft.

Austin is made on high quality raw hides which have been tanned and lightly buffed to achieve a soft semi-aniline feel. A slight two-tone effect is evident and is achieved by using a combination of pigments and dyes. Some marks and scars will be evident which add to this leather's character.  
Thickness: 0.9-1.0mm. Average hide size: 55 sq. ft.

Murano is special finish type 'designer' leather, machine buffed to give a soft hide base then a special blend of oils and waxes are applied to the top coat to achieve a cracked and distressed finish. The leather surface is designed to crack open in initial use to reveal the rich base colours and give a definite 'aged & distressed' character to the furniture. Popular in both domestic and contract settings, a designer's favourite.  
Thickness: 0.9-1.0mm. Average hide size: 55 sq. ft.

Selvaggio is a superb, natural looking distressed leather. It is lightly buffed and carefully brushed with special oils and waxes to give a semi-matt, slightly aged appearance. Featuring some healed scars and marks this leather shows its natural origins with pride and is ideal for all types of upholstery.  
Thickness: 0.9-1.0mm. Average hide size: 55 sq. ft.

Cambridge is a two-tone textured leather with a soft smooth handle, its character has been enhanced with a slightly darker topcoat applied to the grain tips to give a subtle contrast in tone, creating texture and interest in the perfect choice for all types of upholstery.  
Thickness: 0.9-1.0mm. Average hide size: 55 sq. ft.

Blake is a lightly buffed, oiled pull-up leather which gives a natural, distressed appearance. This luxurious pure aniline leather is produced on top quality raw hides. This beautiful leather has a velvet-like soft nap and will show scars and marks which enhance its overall natural appearance. Giving rich, classic appeal to all upholstery types.  
Thickness: 0.9-1.0mm. Average hide size: 55 sq. ft.

Matera is a pure rich aniline leather, lightly buffed and expertly milled to enhance its super smooth handle. It is finished with a special blend of oils and waxes to give a superb, deep pull-up showing the colour transition to great effect. A leather of great distinction, full of character and artisan charm.  
Thickness: 0.9-1.0mm. Average hide size: 55 sq. ft.

## BYRON

Produced on heavier weight Brazilian hides, Byron is a leather that combines casual sophistication and rustic elegance. The subtle variation across the hide created by a hand wipe effect showcases the depth and dimension of this leather.  
Thickness: 1.1-1.3mm. Average hide size: 5 sqm.

## NEW ENGLAND

Dimensions of color and slight pull up qualities across the hide provide subtle variations in depth to enhance this leather's visual appeal. Made on top selection Brazilian hide this is a truly classic leather.  
Thickness: 0.9-1.0mm. Average hide size: 5 sqm.

## WINCHESTER

A heavy-weight, pigmented leather that has been lightly embossed and buffed to create grain uniformity across the hide's surface. Winchester is made on top selection Brazilian hides.  
Thickness: 1.1-1.3mm. Average hide size: 5 sqm.

Newcastle is a full grain aniline pull-up leather, luxuriously tanned and vacuum dried to achieve a tight grain structure with a deep pull-up effect. Healed scars, scratches, neck and belly wrinkles will appear throughout the hide creating the appearance of a traditional saddle leather, perfect for aficionados with a sincere appreciation for genuine leather. Thickness: 0.9-1.0mm. Average hide size: 55 sq. ft.

Cromwell is a beautiful full grain aniline leather, with a very soft tactile finish. Some scars and marks will be evident and serve to enhance the appearance of this luxurious natural leather. Suitable on all upholstery types, but most at home in opulent settings.  
Thickness: 0.9-1.0mm. Average hide size: 55 sq. ft.

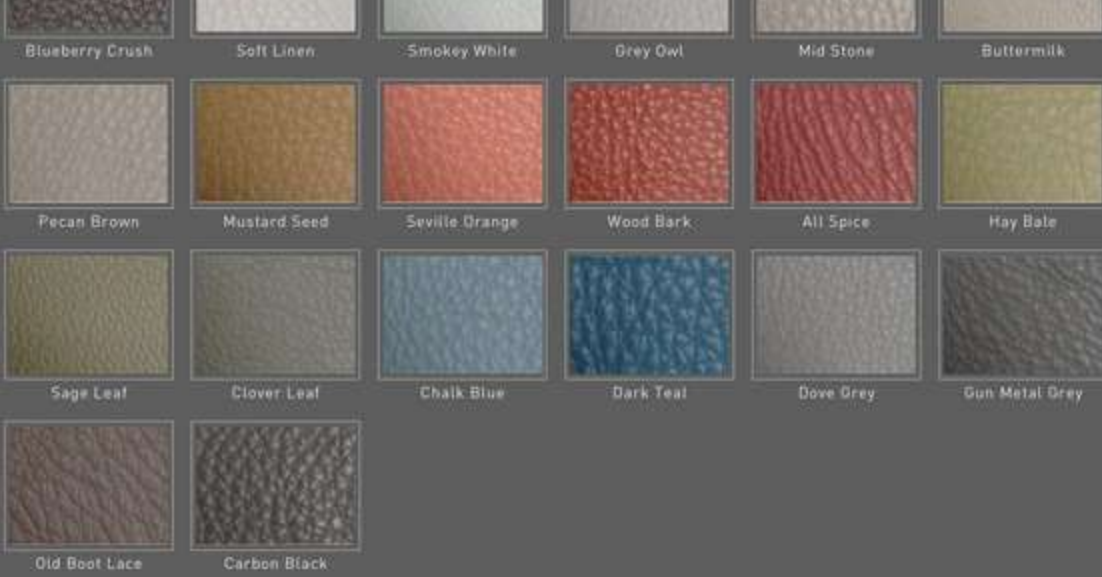

## MILTON

Milton is two-tone textured leather which features a beautiful tipping effect that highlights the peaks of the grain. Its stylishly clean and polished appearance makes it the perfect choice for modern, contemporary upholstery. This broad range of superb, soft, muted colours play testament to its refined appeal. Milton is produced on top selection Brazilian hides. Thickness: 0.9-1.0mm. Average hide size: 5 sq. m.

## HEMMINGWAY

A fantastic natural grain semi-aniline finished hide which has been slightly buffed and milled to ensure a luxurious soft and supple feel to match the elegant muted colour palette. Hemmingway is made on top selection Brazilian hides. Thickness: 1.1-1.3mm. Average hide size: 5 sqm.

## STELLA

A beautiful natural grain semi-aniline hide which has been slightly buffed and then given a waxy finishing coat to enhance the beautiful depth of colour achieved on these truly unique hides - suitable for modern applications but with a definite hint of nostalgia. Stella is produced on top selection Brazilian hides. Thickness: 0.9-1.0mm. Average hide size: 5 sqm.

## BRONX

A superb heavy weight natural grain semi-aniline hide which has been slightly buffed and then given a waxy finishing coat - with a tipped effect this instant favourite has as much character as the region it was named after. Bronx is made on top selection Brazilian hides. Thickness: 1.1-1.3mm. Average hide size: 5 sqm.

## CONTEMPO

A range of ten popular pigmented colours, produced on top selection Brazilian hides. This superb corrected grain leather with its attractive grain print offers outstanding durability, excellent stain resistance and is perfect for all types of upholstery, including the contract sector. Thickness: 0.9-1.0mm. Average hide size: 5 sqm.
